L'espressione made in Italy, con cui Cielo vuole accompagnare il proprio marchio, racchiude in sé quei valori che contraddistinguono l'eccellenza del "fare" italiano considerato come un vero e proprio modello di riferimento nel mondo; la qualità del design, la selezione dei materiali migliori, la cura del dettaglio, la conoscenza dell'artigianalità e la ricerca costante dell'armonia tra forma e funzione. A questi, si aggiunge la volontà da parte dell'azienda di ribadire e difendere l'appartenenza del marchio ad un territorio, quello di Civita Castellana, ricco di tradizione e di capacità manifatturiera, un luogo da cui Cielo ha tratto la propria esperienza, in cui ha fondato il proprio know-how e che oggi costituisce il terreno fertile nel quale coltivare e raccogliere i frutti di un percorso di ricerca, di investimento e di rinnovamento della struttura produttiva. Cielo fa quindi parte di quella rosa di eccellenze produttive italiane che, con lungimiranza, si propone al mercato mondiale garantendo una provenienza geografica diventata sinonimo di qualità e, conseguentemente, promuovendo la propria identità culturale intesa come un valore aggiunto riconosciuto universalmente al prodotto di design industriale italiano.

Cielo's addition of the Made in Italy label to its own brand expresses the distinct nature of Italian ideals which Cielo shares. More than just a geographical tag, "Made in Italy" stands for values that distinguish themselves throughout the world as models of reference. These values; a dedication to excellence in its quality of design, with constant search for harmony between form and function, the use of the very best materials, its unparalleled skill in craftsmanship and attention to detail are what defines the Made in Italy label. Cielo incorporates these values while restating and defending a brand which belongs to an area, Civita Castellana, rich in tradition and manufacturing ability. A place from where Cielo has taken that experience and know-how to shape it into a fertile ground, cultivating and harvesting fruits of research, investment and renovation of the production structure. Thus, Cielo is part of the superlative range of Italian production that ensures the international market that their place of origin is synonymous with quality and as a consequence they promote their cultural identity as the significant universal value of the Italian industrial design.

« territorio e paesaggio site and landscape »

Il territorio in cui sorge la realtà produttiva di Cielo affonda le proprie radici nella civiltà etrusca e si estende nelle campagne tra Viterbo e Roma; un territorio di notevole pregio che racchiude innumerevoli opere e preziose testimonianze della sua storia.

Un luogo di antiche tradizioni ricco di aree templari, di necropoli e di santuari, che conserva un notevole patrimonio artistico e archeologico, costituendo uno dei principali siti delle età del ferro e del bronzo.

The site of Cielo's manufacturing center is an area whose roots extend back to Etruscan civilization, stretching in the splendid countryside between Viterbo and Rome. This uncommonly beautiful landscape is studded with countless historical and artistic treasures.

It is the site of ancient traditions, with many temples, necropoli and sanctuaries, with an impressive artistic and archeological heritage, making it one of the most important Bronze and Iron Age sites.

Santa Maria church in Falerii Novi

« fatto a mano in Italia handmade in Italy »

Alla base dell'unicità del prodotto di design Cielo risiede la capacità imprenditoriale di conciliare un prodotto industriale di altissima qualità con la volontà di non perdere la tradizione della lavorazione fatta a mano. La lavorazione della ceramica, in tutte le sue molteplici declinazioni, è di fatto una delle più antiche pratiche di trasformazione della materia prima naturale in oggetto d'uso.

At the basis of Cielo product design uniqueness, lies the skill in conciliating a top-notch industrial product with the intention in not losing the handmade working tradition.

The ceramic manufacturing, in its every multiple inflection is, as a matter of facts, one of the most ancient practice of transforming raw material in a usable object.

il laboratorio della ceramica ceramic workshop

"Contrariamente alle logiche industriali di questi ultimi decenni, la nostra scelta è stata quella di riportare al centro "la cultura delle mani" che l'industria manifatturiera in questi ultimi anni ha distrutto poiché ossessionata dal costo orario ed industriale. La nostra ambizione è che cielo sia una "bottega" del rinascimento del vero made in Italy. Un laboratorio dove la "cultura delle mani" sconfigga la meccanizzazione estrema a favore della dignità professionale delle persone, che tornano ad essere dei maestri artigiani." "L'uomo è al centro del nostro progetto industriale"

"Going against the industrial approach typical of recent decades, we chose to return focus to the "culture of handmade", a culture that the manufacturing industry has decimated in recent times in its obsession with hourly and industrial costs. We aspire for Cielo to be a Renaissance workshop of genuine Italian-made quality. A workshop where "the culture of handmade" defeats excessive mechanization, returning professional dignity to people, rendered once again master craftspeople." "People are at the core of our company plan"

"L'uomo è al centro del nostro progetto industriale"
"People are at the core of our company plan"

Alessio Coramusi - CEO Ceramica Cielo

**«...oltre ogni limite,
fin dove si può arrivare a
mostrare cosa la ceramica
può raccontare o quali
emozioni una sfumatura di
colore può dare.**

**... beyond all bounds,
taking ceramic as far as it
can go, telling its stories
and evoking the emotional
impact of color. »**

« spessori ultrasottili,
una gamma colori unica al mondo,
design originale e contemporaneo...
rendono la nostra ceramica
unica ed inimitabile. Ultra-thin
thickness, a unique range of colours,
original and contemporary design...
those are the characteristics which
make our ceramic inimitable and unique »

« la salvaguardia dell'ambiente quale priorità

environmental protection as a priority »

Rispetto dell'ambiente Environment respect

- Cielo ricicla un'elevata percentuale dei propri scarti di lavorazione attraverso aziende di filiera che ne consentono il riutilizzo industriale, viceversa la materia prima utilizzata da Cielo proviene in parte dal recupero di materiali di scarto appartenenti a tipologie aziendali diversificate.
- Cielo ha strutturato i propri impianti e le proprie dotazioni impiantistiche al fine di ridurre al minimo i consumi energetici.
- Cielo considera l'applicazione delle normative di rispetto ambientale la priorità imprescindibile a cui dedicare la massima attenzione, cura e aggiornamento.

- Cielo recycles a high percentage of production waste through the production chain allowing the industrial reuse, vice versa the raw material used by Cielo comes partially from diversified company waste materials recover.
- Cielo structured its plants with the objective of reducing the power consumption.
- Cielo considers the following of laws regarding environment respect an essential priority to be dedicated with the total attention, care and updating.

Cielo considera il rispetto e la salvaguardia dell'ambiente una responsabilità sociale e un impegno etico per il raggiungimento dei quali dedica costantemente investimenti in termini economici e di ricerca/sviluppo. Obiettivo di Cielo è infatti quello di dotarsi dei sistemi tecnologici e degli impianti più innovativi per l'ottimizzazione dell'utilizzo delle risorse naturali e il riciclo delle materie prime impiegate nel ciclo produttivo della ceramica.

Cielo considers the environment respect and preservation a social responsibility and an ethical commitment in which Cielo constantly dedicates investments in economical and research/development terms. Cielo purpose is, as a matter of facts, being geared with the most technological systems and innovating plants for the optimization and use of natural resources, nevertheless the recycling of raw materials used in the ceramic production cycle.

Pari opportunità Equal opportunities

- Nella selezione del personale di Cielo non esiste alcuna discriminazione né distinzione tra uomini e donne.
- Cielo impiega, senza alcuna discriminazione, mamme con bambini e, laddove possibile, ne agevola gli orari.
- La prevenzione e la sicurezza sul luogo di lavoro, nonché l'applicazione dei protocolli di trasparenza con i propri fornitori costituiscono una delle priorità assolute per la gestione della struttura produttiva e amministrativa di Cielo.
- Cielo non sfrutta e non impiega in nessun modo il lavoro minorile.

- On Cielo staff selection there isn't any discrimination nor differences between men and women.
- Cielo hires, without any discrimination mothers with children and if possible facilitates working hours.
- Prevention and safety as well the application of transparency protocol with our suppliers constitute the top priorities for the managing of the administrative and productive Cielo structure.
- Cielo does not take advantage or make any use of child labour.

« requisiti tecnici technical requirement »

Risparmio idrico Water Saving

- Cielo produce sanitari di alta gamma concepiti per assicurare un notevole risparmio di acqua; questi, contrassegnati dal marchio "save the water", garantiscono il funzionamento con soli 4,5 litri di acqua, a differenza di quelli tradizionali che necessitano di almeno 6 o 7 litri.

- Cielo produces high-end sanitary wares created to ensure a considerably large water saving. Cielo sanitary wares labelled "save the water" works with only 4,5 litres of water, instead of the 6-7 litres of the traditional ones.

100% Smaltato Glazed

- Tutti i nostri sanitari sono interamente smaltati al loro interno. Per una igiene totale, una massima funzionalità e lunga durata.
- All our toilets are fully glazed outside and inside. For a total hygiene, maximum functionality and durability.

Senza brida Rimless

- La praticità di utilizzo si traduce in facilità di pulizia: l'assenza della brida consente di igienizzare l'intero bacino con un semplice gesto, evitando l'uso di prodotti specifici per la pulizia dello spazio al di sotto della brida.

- The practicality of use goes along with the ease of cleaning: the absence of the rim allows to sanitize the entire basin with a simple gesture, avoiding the use of specific products for the cleaning of the hidden areas below the rim.

I colori: le Terre di Cielo.

**“Tra tutte le qualità, il
colore è quella
di cui è più difficile parlare”
“Above all, color is the most
difficult to talk about”**

Civita Castellana

«la natura è colore _nature is colour»

**« La natura come
matrice cromatica. Colori e suoni
appartengono alla natura [...] sono
il linguaggio stesso della natura.**

**Nature as chromatic matrix.
Colours and sounds belong to
nature [...] they are the very
language of nature »**

**I colori hanno
una loro vita propria,
si trovano anche
nella parte interna
delle conchiglie
assopite nelle
profondità marine.**

**Colours live a life
of their own; they
are also found inside
conches resting on
the bottom
of the ocean.**

Ernst Jünger, **Due volte la cometa**, 1987

le 16 nuances \ 16 shades

Talco

Scaglie e piccoli cristalli minerali si trasformano in morbida polvere di un bianco latte contaminato da punte brunastre.

Mineral flakes and small crystals turn into a soft, milky white powder contaminated by brownish points.

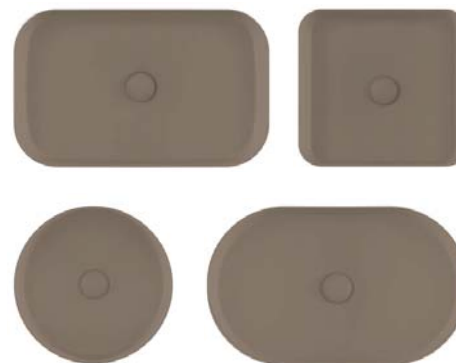

wc sospeso Le Giare
Le Giare wall-hung wc

bidet sospeso Le Giare con bacino reverso
reverse shape Le Giare wall-hung bidet
37 x 55 x 33,5h - LGBSREV
finitura / finish Talco

Arenaria

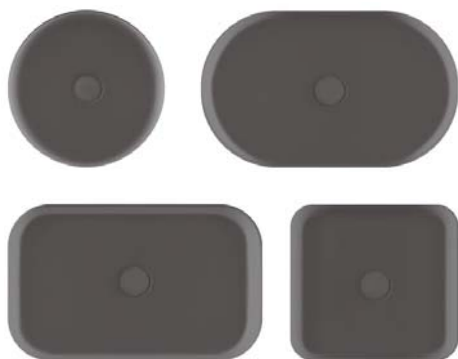

L'origine sedimentaria dell'arenaria unisce le tonalità del grigio in un unico, elegante colore, identificativo della sua natura litica.

The sedimentary origin of sandstone combines different shades of grey in a single, elegant colour which bears witness to its lithic nature.

orinatoio sospeso Ball
wall-hung urinal Ball
66 x 30 x 70h - ORBL
finitura / finish Arenaria

Cemento

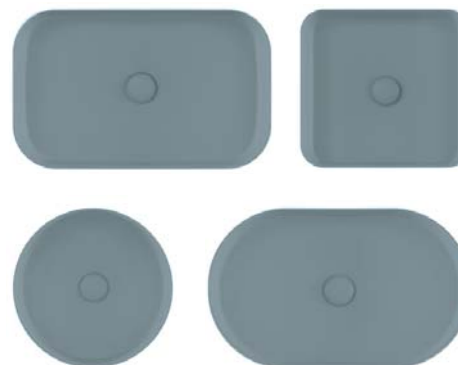

La durissima 'pietra' artificiale, generata da una morbida pasta di polvere e acqua, assume un elegante colore grigio intenso che si fonde con pigmenti testa di moro.

This extra-hard artificial "stone", made out of a soft paste of powder and water, takes on an intense gray hue blending with dark brown tone.

Shui on top bowl Ø40
Ø40 x 18h - SHBA40
finitura / finish Cemento

Polvere...di Cielo

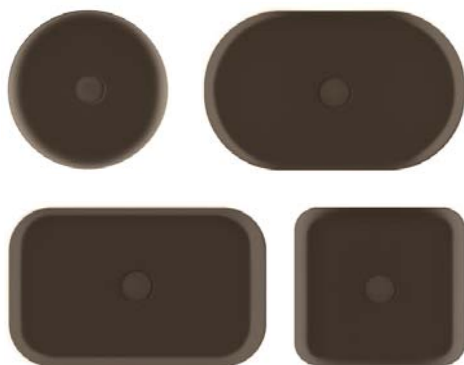

Dal ciano al violetto, dalle sfumature più fredde del grigio all'azzurro del cielo. Una nuance raffinata in piena armonia con la natura.

From cyan to violet, with cooler overtones of gray and sky blue. A refined hue in complete harmony with nature.

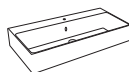

lavabo Shui Comfort quadrato 40
Shui Comfort square washbasin 40
40 x 40 x h12,5 - SHCOLAQ40
finitura / finish Polvere

Cacao

Un lungo processo di lavorazione trasforma il porpora della mandorla contenuta nel frutto del cacao nel caratteristico colore bruno toccato da una punta di ocra.

A long process transforms the purple of the almond inside the cocoa fruit into the characteristic brown shade with a touch of ochre.

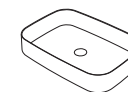

lavabo rettangolare 60
rectangular 60 washbasin
60 x 46 x 13h - SMLAA60
finiture / finish Cacao

Canapa

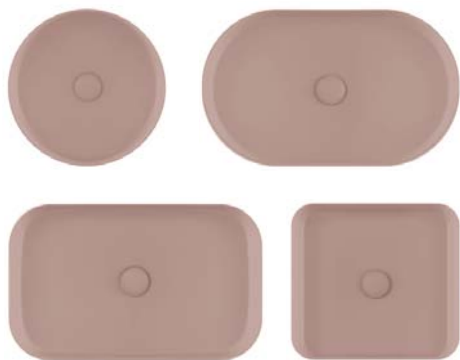

E' una fibra tessile primordiale e prestigiosa, dalle mille risorse. Con le sue sfumature di giallo, grigio e tortora evoca una bellezza senza tempo.

It is a primordial and precious textile fiber with a thousand possibilities for use. With its shades of yellow, gray and dove-grey, it evokes timeless beauty.

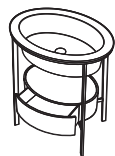

lavabo rettangolare Shui Comfort 60 x 40
Shui Comfort rectangular washbasin 60 x 40
60 x 40 x h12,5 - SHCOLAR60
finitura / finish Canapa

Cipria

Il rosa naturale della cipria picchiettato da residui di minerali si associa alla texture vellutata della sua struttura a grana finissima.

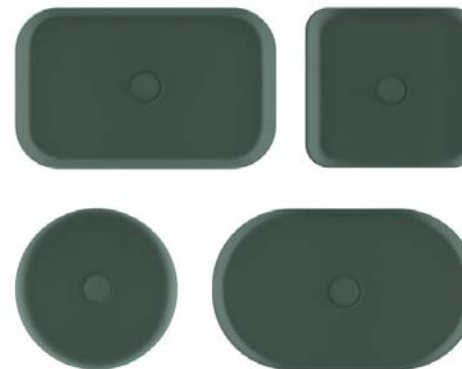

The natural pink of powder flecked from mineral residues, match with the velvety texture of its very fine-grained structure.

Catino Ovale

lavabo/washbasin **Cipria**
cassetto/drawer **Pomice**
struttura/framework **Bronzo Spazzolato**

Muschio

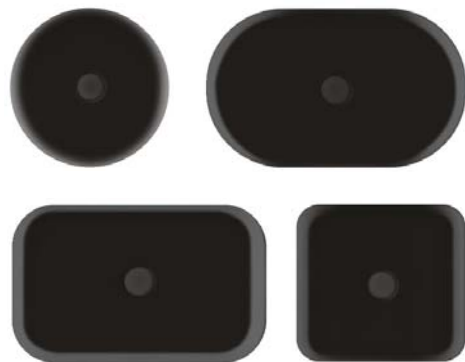

Il verde del muschio di sottobosco evoca sensazioni primordiali associate alla morbida tattilità della sua superficie.

The intense green of the moss found in forest undergrowth evokes primordial sensations associated with the tactile softness of its surface.

bacinella da appoggio Shui Ø45

collezione Arcadia

design APG Studio

Una collezione di elementi per la stanza da bagno dei nostri tempi, personalizzabili, sofisticati ed eleganti. Fanno parte della collezione la vasca Cibeles, il mobile lavabo freestanding Tiberino, e gli specchi Argo, Pluto e Polifemo.

Dal forte impatto estetico, **Cibeles** è una vasca in LivingTec rivestita da essenze in legno o laccati, con forme morbide e dimensioni ultra compatte - soltanto 160 cm - ideale anche per ambienti più piccoli e con possibilità di personalizzazione della scocca esterna. Il rivestimento infatti può essere realizzato in differenti essenze o laccature.

Tiberino, mobile freestanding capace di coniugare funzionalità ed eleganza in uno spazio contenuto.

Dall'appeal minimalista, si distingue per la sua forma geometrica e per l'originale top tondo in ceramica.

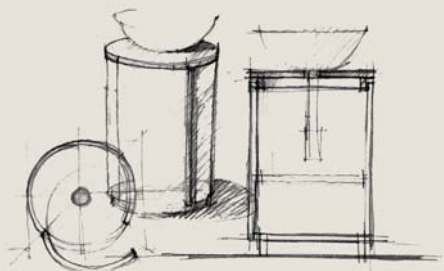

Anch'esso personalizzabile nelle essenze o nelle laccature.

Al mobile, si affianca una gamma di inedite e originali specchiere dal design unico e di grande personalità.

Autentici elementi di arredo e di architettura proposti nei modelli **Argo**, versione a soffitto o a parete con o senza luce led;

Pluto, tonda basculante a parete con o senza luce led;

Polifemo, di forma rettangolare con specchi tondi ingranditori basculanti, con luce led.

A range of customizable, sophisticated and elegant elements for the modern bathroom.

The collection consists of: Cibeles bathtub, Tiberino freestanding washbasin cabinet, Argo, Pluto and Polifemo mirrors.

Made of LivingTec and covered with wood or lacquers, Cibeles' new bathtub Cibeles makes an impression for its soft shape and the ultra compact dimensions - just 160cm - also ideal for small spaces. The exterior covering is customizable thanks to various wood or lacquer finishes.

***Tiberino**, the freestanding cabinet that deftly merges practicality and style in a small space. Featuring minimalist flair, its geometric form sets it apart along with its original round ceramic top.*

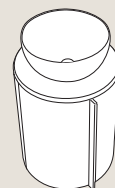

Also Tiberino is customizable in wood or lacquer finishes.

Along with the cabinet, there is a range of innovative and original mirrors featuring unique design high on personality. They are full-fledged pieces of furnishing and architecture, proposed in three different versions:

***Argo** - ceiling-mounted or wall-hung version, with or without led light; **Pluto** - the round tilt-and-turn wall mounted version, with or without led light; **Polifemo** - the rectangular version with round, magnifying, tilt-and-turn mirrors, with led light.*

The possible variations of the colour cannot be considered as defect, but as a guarantee of the completely artisan manufacturing of this unique and high quality product.

collezione **Le Giare**

design **Claudio Silvestrin**

Claudio Silvestrin

collezione Le Giare

Claudio Silvestrin è nato nel 1954 e ha studiato a Milano con A. G. Fronzoni e all'Architectural Association a Londra. La sua integrità, la chiarezza delle idee, la inventiva e la cura del dettaglio si rispecchiano nella sua architettura che è austera ma non estrema, contemporanea eppure senza tempo, rassicurante ma non ascetica, forte ma non angosciante, elegante ma non pretenziosa, semplice ma non anonima. Lo studio londinese di Claudio Silvestrin Architects è stato fondato nel 1989 e nel 2006 ha aperto uno studio anche a Milano.

“Mi sono spesso chiesto perché, entrando in bagno, percepiamo sempre una ‘dissociazione’ tra la coppia vaso-bidet e il lavabo. Ho quindi immaginato i tre elementi ‘Le Giare’ come, metaforicamente parlando, tre gemelli accostati tra loro in armonia da una geometria chiara, leggibile ed elegante. Un'unica geometria che abbraccia tre funzioni e che nasce dalla forma, percepita e riconosciuta come forma assoluta, simbolo di vita e di perfezione: quella dell'uovo”.

Claudio Silvestrin

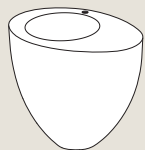

Born in 1954, Claudio Silvestrin studied under A. G. Fronzoni in Milan and at the Architectural Association in London. His integrity, clarity of mind, inventiveness and concern for details is reflected in his architecture: austere but not extreme, contemporary yet timeless, calming but not ascetic, strong but not intimidating, elegant but not ostentatious, simple but not soulless. Claudio Silvestrin Architects was established in 1989 with offices in London, and since 2006 in Milan also.

"I often asked myself why I get this feeling of disconnection between the WC, bidet and wash basin when I enter a bathroom. Then I've imagined those three elements of "Le Giare" as, metaphorically speaking, a set of triplets drawn together in harmony by a clear, readable and elegant geometry. A shape that could encompass three functions, a shape that arises from the form; a geometry worldwide perceived and recognized as absolute, a symbol of life and perfection: the shape of an egg."

Claudio Silvestrin

collezione **Fluid**

design **Marco Piva**

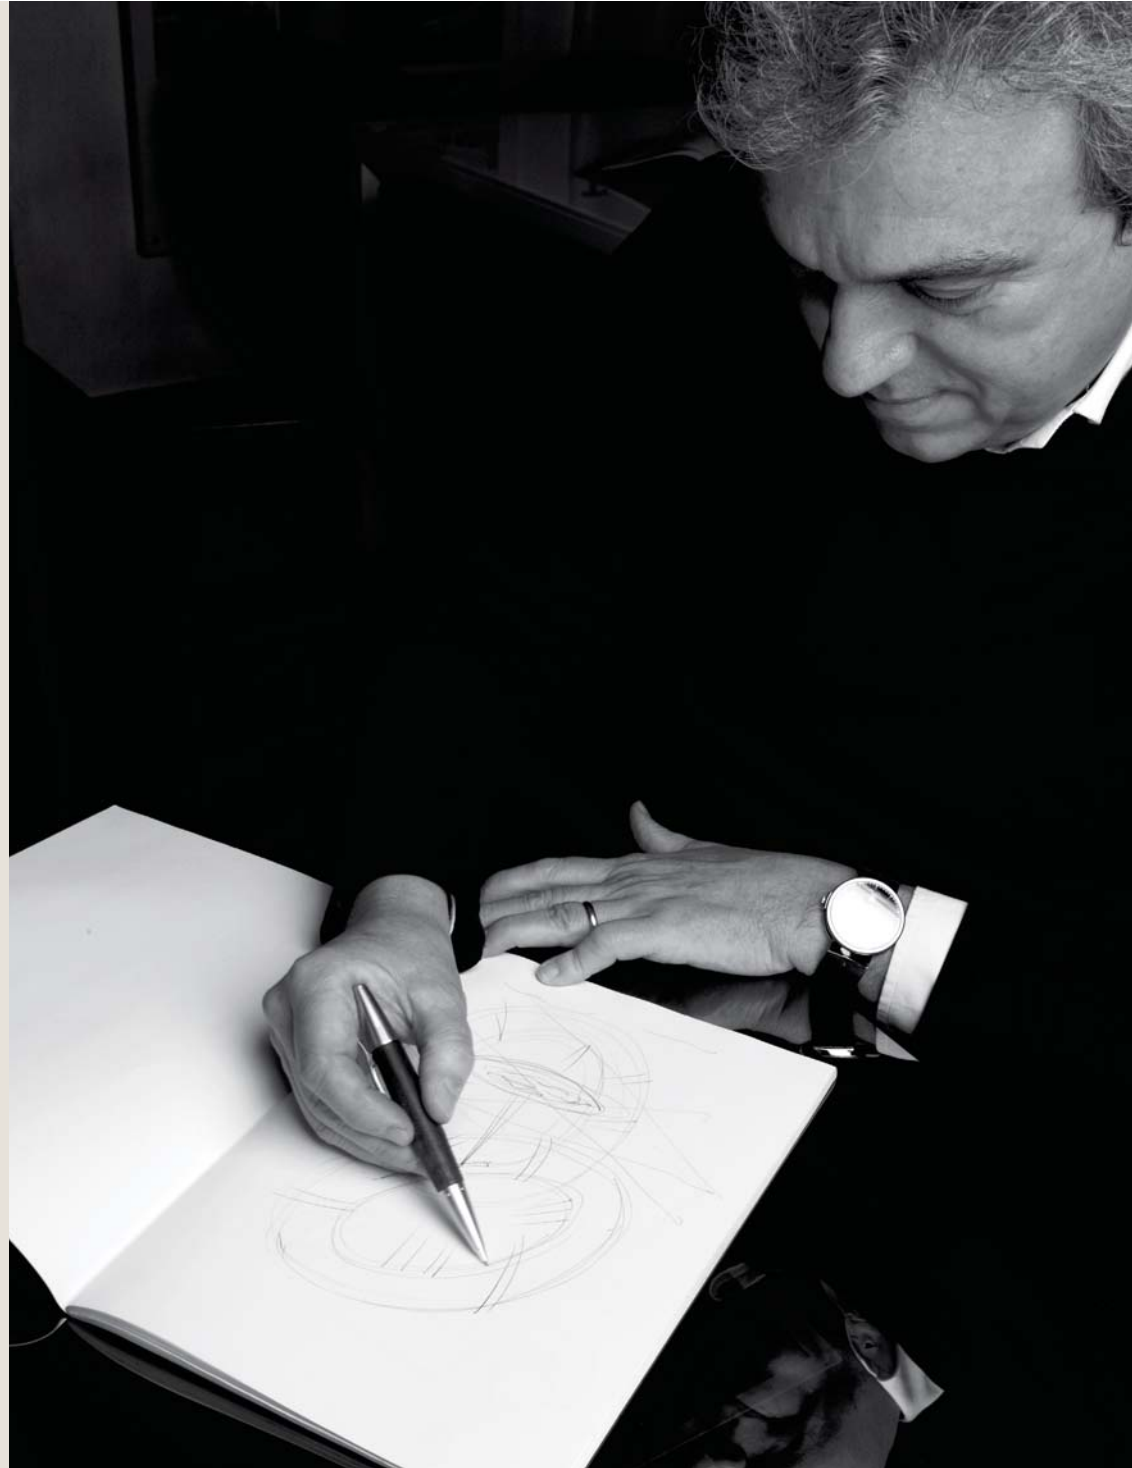

Marco Piva

collezione Fluid

Definisce il suo linguaggio emozionante, fluido e funzionale, firmando le proprie realizzazioni legate all'architettura, al product e all'interior design. Lo sforzo nella ricerca materica e tecnologica, il valore della differenziazione e l'innovazione progettuale sfociano nella fondazione dello Studioudada Associati, la cui produzione diventa una delle più rappresentative del periodo del Radical Design. Negli anni '80 apre lo Studio Marco Piva, la cui attività spazia dai grandi progetti architettonici alla progettazione d'interni, fino al disegno industriale. Viaggiatore prima ancora che progettista, studia e crea soluzioni progettuali intrise di libertà stilistica, gli oggetti si caricano di emozionalità e nuova simbologia, i colori contrastano ogni intellettualismo e rigidità.

He defines his language as fetching, fluid and functional, authoring designs in architecture, product design and interior decoration. The attentive research on materials and technology, the eclectic approach and innovative design has resulted in the foundation of Studioudada Associati, whose creations are among the most representative of the Radical Design period. In the Eighties he opened Studio Marco Piva, working in a wide range of fields, from large architecture projects to interiors to industrial design. Piva sees himself first and foremost as a traveller and only secondarily as a designer, and researches and designs solutions that burst forth with stylistic freedom, emotional intensity and new symbolologies, in colours that belie all intellectualism and rigidity.

collezione **Shui**

design **Paolo D'Arrigo**

Paolo D'Arrigo

collezione Shui

Paolo D'Arrigo, classe 1967, formazione multidisciplinare che spazia dalla sociologia al design. Al profilo di designer affianca le attività di direzione artistica, di progettazione di spazi espositivi, insegnamento e associazionismo. Un percorso esplorativo completo, circolare che dall'oggetto porta all'uomo e dall'uomo all'oggetto. Osservatore attento della realtà e dei mutamenti che interessano il mondo del progetto, ha ideato e organizzato numerosi eventi culturali incentrati sull'evoluzione del design e del gusto. L'approccio materico, la continua ricerca dell'innovazione tecnica e funzionale e l'interesse rivolto ai temi della sostenibilità caratterizzano il suo percorso progettuale.

Paolo D'Arrigo, born in 1967, with a multidisciplinary education ranging from sociology to design.

Beyond his activity as a designer he is also entrusted with the activities of art direction, exhibition design, education and community work. An exploring and complete career, a cycle which goes from the object to the man and from the man to the object. Observing attentiously the reality and the transformations which affect the domain of design, he has conceived and organized numerous cultural events centred around the evolution of design and taste.

His design career is characterized by a material approach, by the continuous research of technical and functional innovation and by his interest focussed on topics of sustainability.

design Karim Rashid

Karim Rashid

collezione Enjoy

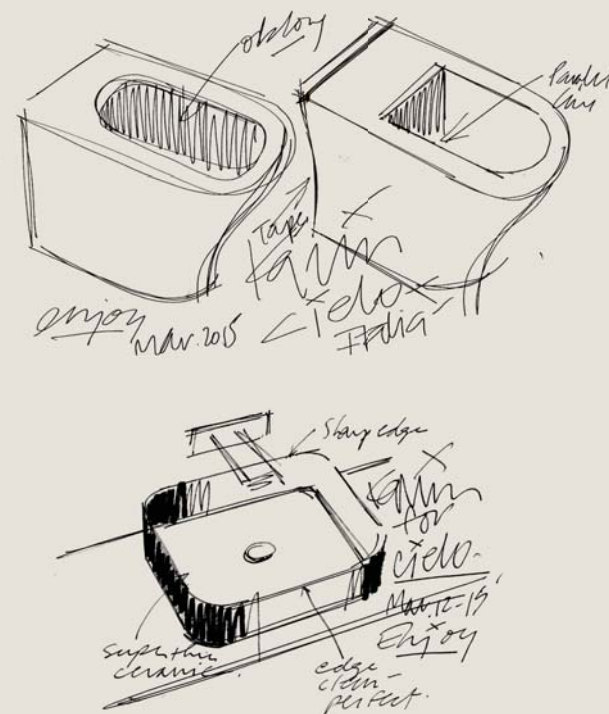

Enjoy nata dall'idea del poliedrico designer Karim Rashid, si caratterizza come una collezione fresca, giovane, dinamica. Le forme e la gamma colori permetteranno di adattare sanitari e lavandini a tutte le soluzioni bagno.

Karim Rashid vive in 4 città diverse e lavora in 42 paesi; si divide tra New York, Belgrado, Miami, in Messico e tutta una serie di hotels sparsi per il mondo. Ha uno studio a Manhattan, uno a Shenzhen. Si sposa due volte, dopo un primo matrimonio con la pittrice Megan Lang durato dal 1995 al 2005, il primo settembre 2008 sposa, con cerimonia a New York e a Belgrado, l'ingegnere chimico Ivana Puri. Il 25 marzo 2013 nasce Kiva e Karim diventa per la prima volta padre. Fratello dell'architetto Hani Rashid e con una sorella, Soraya Rashid, musicista e pittrice, Karim è noto per i suoi abiti bianchi e rosa e per i suoi eccentrici occhiali di design, firmati Alain Mikli e Sceye Sweden. Famoso altresì per lo spirito provocatorio dei suoi interventi e delle lezioni, tenute in tutto il mondo, Karim è stato definito dalla rivista Time "il designer industriale più celebre di tutto il continente americano".

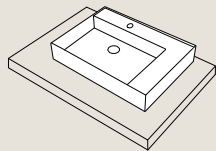

Born from an idea of the multifaceted designer Karim Rashid, Enjoy stands out as a fresh, young and dynamic collection.

Shapes and color ranges allow adapting sanitary wares and washbasins to any bathroom solution.

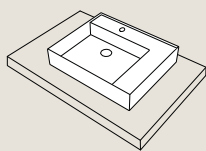

Karim Rashid lives in four cities and works in 42 countries; He splits himself between New York, Belgrade, Miami, Mexico and several hotels around the world. He has a studio in Manhattan and one in Shenzhen. He married two times, after a first marriage with the painter Megan Lang lasted from 1995 to 2005. The 1st September 2008 marries, with ceremony in both New York and Belgrade, the chemical engineer Ivana Puri. The 25th march 2013 Kiva was born and Karim becomes father for his first time. Brother of the architect Hani Rashid and with a sister, Soraya Rashid, musician and painter, Karim is famous for his pink and white dresses and for his eccentric design glasses by Alain Mikli and Sceye Sweden. Also known for the defiant spirit of his speeches and lectures worldwide, Karim has been defined "the most famous industrial designer of the Americas" by the magazine "Time".

Orinato

design 5.5 Designers

5.5 Designers

Orinatoï

E' uno studio di ricerca e di consulenza nel campo del design nato nell'agosto 2003 da Vincent Baranger (nato il 28/05/1980 a La Roche-sur-Yon), Jean-Sébastien Blanc (nato il 21/10/1980 a Nîmes), Anthony Lebossé (nato il 14/01/1981 a Caen) e Claire Renard (nata il 12/11/1980 a Poissy). I quattro designer si sono incontrati durante i loro studi a l'Ecole Nationale Supérieure d'Arts et de Métier d'Art (ENSAAMA) di Parigi. Il loro primo progetto "Réanim" ovvero la medicina degli oggetti, segna l'inizio del loro ingresso nel mondo del design. Vivono e lavorano a Parigi; le collaborazioni con importanti marchi si moltiplicano ogni giorno. Una nuova generazione di progettisti francesi si sta imponendo sulla scena internazionale grazie ad un design impegnato e ottimista. Secondo i 5.5 designers le politiche di impresa non danno il giusto peso al disegno industriale che tuttavia rimane lo strumento chiave per un rinnovamento necessario della società caotica in cui viviamo.

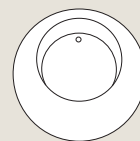

This research and consulting design studio was founded in August 2003 by Vincent Baranger (born 28/05/1980 in La Roche-sur-Yon), Jean-Sébastien Blanc (born 21/10/1980 in Nîmes), Anthony Lebossé (born 14/01/1981 in Caen) and Claire Renard (born 12/11/1980 in Poissy). The four designers met when studying at the Ecole Nationale Supérieure d'Arts et de Métier d'Art (ENSAAMA) art school in Paris. Their first project, "Réanim" or "medicine for objects" marked their debut in the world of design. They live and work in Paris; their collaborations with major brands are proliferating by the day. A new generation of French designers is emerging on the international scene, driven by optimistic, engaged design. According to 5.5 Designers, companies do not yet give the proper importance to industrial design, despite it being a key tool to the renewal needed in our modern-day chaotic society.

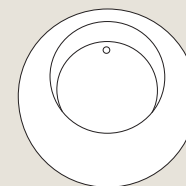

Orinatoï. Il linguaggio ironico ed estroverso dei 5.5 Designers costituisce un contrappunto alle forme classiche dell'orinatoio. Declinati in tre versioni: Slot, proposto nella versione da terra, è costituito da un blocco monolitico, un totem scultoreo solcato da una profonda fessura curvilinea; Ball, nella versione sospesa, si presenta come una scultura ironica dalle forme morbide, generose e pulite generate dalla geometria del cerchio; Mini Ball, sempre in versione sospesa, presenta le stesse caratteristiche formali di Ball ma in dimensione ridotta.

Urinals. The ironic and extroverted language of 5.5 Designers provides a counterpoint to the traditional shape of the urinal. Presented in three versions: Slot, presented in the floor-standing version, is a monolithic block, a sculptural totem furrowed by a deep curvilinear groove; Ball, in the wall-hung version, has the appearance of an ironic sculpture with a soft, generously proportioned and clean-cut shape generated by the geometry of a circle; Mini Ball, the other wall-hung version, has the same formal characteristics as Ball but in smaller dimensions.

Caratteristica principale della **collezione Infinito** è la possibilità di personalizzazione scegliendo tra le molteplici finiture e formati standard o a misura. Tutti i piatti doccia della collezione si possono tagliare a misura. La misura standard massima è 160 x 90 cm e la minima è 90 x 70. Non sono possibili tagli curvi. Il lato tagliato rimarrà non smaltato e dovrà essere addossato alla parete o incassato al pavimento.

The key feature of the **Infinito collection** is the option of customizing it starting from many finishes and sizes. All shower trays of this collection may be custom cut. The bigger standard size is 160x90 cm, and the smaller is 90 x 70 cm. Curved cuts are not possible. The cut side will not be glazed so it must be installed against the wall or recessed in the floor.

Possibilità di taglio su misura
Possibilities of custom size

Tutti i piatti doccia della Collezione Venticinque sono reversibili, cioè è possibile installarli con la piletta posizionata a destra o a sinistra. La misura minima è 90x70 cm. La misura massima è 200x100 cm. Tutte le richieste di personalizzazione dovranno essere comprese nell'intervallo di queste misure minime e massime. Non sono possibili tagli curvi.

All shower trays of Venticinque Collection are reversible, in other words, you can install them with right or left waste. The smallest available size is 90x70 cms. The biggest available size is 200x100 cms. All bespoke requests cannot get beyond smallest/biggest available size. Rounded cuts are not realizable.

CERAMICA SU MISURA: LA RIVOLUZIONE DEL PIATTO DOCCIA

CUSTOMIZED CERAMIC: A SHOWER TRAY REVOLUTION

Caratteristica principale della **collezione Infinito** è la possibilità di personalizzazione scegliendo tra le molteplici finiture e formati standard o a misura. Tutti i piatti doccia della collezione si possono tagliare a misura. La misura standard massima è 160 x 90 cm e la minima è 90 x 70. Non sono possibili tagli curvi. Il lato tagliato rimarrà non smaltato e dovrà essere addossato alla parete o incassato al pavimento.

The key feature of the **Infinito collection** is the option of customizing it starting from many finishes and sizes. All shower trays of this collection may be custom cut. The bigger standard size is 160x90 cm, and the smaller is 90 x 70 cm. Curved cuts are not possible. The cut side will not be glazed so it must be installed against the wall or recessed in the floor.
